

# ETHOSPACE® SYSTEM

SS	WE	EA	MR	EQ	ID
Prerequisite 1-2 Credits 1-7					

## Sustainable Sites

Not applicable

SS	WE	EA	MR	EQ	ID
Prerequisite 1-2 Credits 1-3					

## Water Efficiency

Not applicable

SS	WE	EA	MR	EQ	ID
Prerequisite 1-3 Credits 1-6					

## Energy and Atmosphere

Credit 1

### Optimize Energy Performance

Task lighting may contribute to this credit. Herman Miller task lights use high-efficiency electronic ballasts and energy-efficient lamps that can help to reduce the overall lighting power required for the building.

10 points

SS	WE	EA	MR	EQ	ID
Prerequisite 1.1-2 Credits 1-6					

## Material and Resources

Credit 1.1-1.2

### Construction, Demolition, and Renovation Waste Management

Ethospace may contribute to this credit through the use of recyclable packaging. Ethospace packing materials include corrugated cardboard, molded pulp, and expanded polystyrene foam. These materials are recyclable in many markets, which can reduce landfill disposal. Bulk packs also reduce the amount of packing material required.

2 points

Credit 2.1-2.5

### Optimize Use of Alternative Materials

*Reuse*— Ethospace is designed for durability with a comprehensive 12-year warranty and is easily reconfigured during renovation projects.

*Recycled Content*— Ethospace may contribute to this credit as a typical workstation contains 35% recycled content. Ethospace contains 18% post-consumer recycled content and 17% pre-consumer recycled content.

*Rapidly Renewable*—Bamboo veneers, which are considered rapidly renewable materials, can be specified in lieu of wood veneers through Herman Miller Options®. Kira fabric, made from corn, can be used on tiles.

*Certified Wood*— Ethospace work surfaces can be specified with FSC-certified veneers through Herman Miller Options.

5 points

Credit 3

### Optimize Use of IAQ Compliant Products

Furniture is not included in the scope of this credit.

Credit 5.1-5.3

### Occupant Recycling

*Recyclable Packaging*—Ethospace packing materials include corrugated cardboard, molded pulp, and expanded polystyrene foam. These materials are recyclable in many markets, which can reduce landfill disposal.

3 points

Credit 6

**Additional Toxic Material Source Reduction**—Reduced mercury in light bulbs

Lower mercury bulbs can be ordered through Herman Miller Options.

1 point

SS	WE	EA	MR	EQ	ID
Prerequisite 1-4 Credits 1-10.6					

## Indoor Environmental Quality

Credit 6.1

### Controllability of Systems—Lighting

Task lighting can contribute to this credit.

1 point

Credit 8.1

### Daylight and Views—Daylight for 50% of spaces

Ethospace may contribute to this credit through the use of transparent materials and low furniture heights, allowing daylight to reach building occupants.

1 point

Credit 8.2

### Daylight and Views—Daylight for 75% of spaces

Ethospace may contribute to this credit through the use of transparent materials and low furniture heights, allowing daylight to reach building occupants.

1 point
